WE OFFER THE FOLLOWING TERMS OF SALE

1. All Coins GUARANTEED Genuine - This is a LIFETIME Guarantee!
2. All attributions are guaranteed correct - also LIFETIME Guarantee!
3. The IDENTIFIED POPULATION estimates (RARITY) of varieties change as more pieces of Copper are attributed, and it is IMPOSSIBLE to have an ACCURATE rating! But, we do use the most up-to-date data available - as reflected in "Copper Quotes by Robinson". (CQR)
4. STRICT ANA & EAC guidelines are used in grading, which consist of assigning a grade based on the state of preservation/wear of the piece. We then describe the condition of the coin so that you will have as good an idea as possible of what the coin looks like without actually being able to see it in person. It is our intent that there be NO SURPRISES when you receive the coin. Virtually all old Copper has accumulated some marks in their lifetime since leaving the Die/Mint - It is our intent to describe any such marks of significance. We now introduce a new term - VALUE GRADING!!

   Sharpness Grade is far easier to describe in consistent terms, and where there may be circulation defects such as porosity, gouges, rim dinges/nicks/bruises, corrosion and other such detractions, arriving at a NET GRADE is certainly subjective at best. The grade that we have assigned on the first line describing each coin is intended to represent this NET GRADE/VALUE GRADE.

   If the Second Line does NOT start with a Sharpness grade, then it is our opinion that the NET GRADE of the coin is the SAME AS the SHARPNESS GRADE of the coin, and that there are NO SIGNIFICANT defects worth mentioning. Perhaps NOT PERFECTION, but whatever marks or other elements that may be present, do not deduct from the over-all appearance/grade of the coin, and are mentioned for accuracy.
5. A Full 30 DAY return privilege is allowed for any or no reason. Our business is based upon attracting repeat customers, and it does none of us any good for you to keep a coin with which you are not completely satisfied. The 30 day period is an approval period, and we welcome any of our customers to show their purchases from us to any other EXPERIENCED EAC member for another opinion. Sales are final after the 30 day period, but we will certainly consider extensions in this time limit upon any reasonable request.
6. All coins are guaranteed to meet ANACS certification for grading! Any coin graded lower by ANACS can be returned within 120 days for immediate refund of the full purchase price plus all ANACS certification service fees.
7. All orders are sent postpaid.
8. Approval service is available to established clients with 7 day terms.

We are always interested in buying Early Copper & Type Coins! If you have coins to sell, we would be happy to have you contact us. We are willing to PAY STRONG PRICES for NICE coins. We will also accept coins on a consignment basis at a reasonable commission. Please feel free to contact either of us with ANY questions that you may have:

MAY, 1989 FIXED PRICE LIST #0022

Welcome to issue #22. I returned home from the EAC convention in Cincinatti recently with well over a double row box of new purchases. These are offered here for the first time. Many new Jack Robinson Sale coins are also offered. The Loye Lauder specimen of S-76a is the first of this variety I have had for some time. Many other scarce and condition census level Sheldon varieties are available including S-73, S-114, S-118, as well as CC specimens of S-147 & S-212. An outstanding selection of the varieties of 1800 is offered here, several at or near condition census level I have a nice selection of middle and late dates highlighted by a VF35 1823 N-1 as well nice specimens of 1826 N-8 and 1830 N-7. Late date collectors will be pleased to find an extensive run of 1848 varieties. Among Colonials I have two of the finest Landscape type Vermonts I have seen in some time. There should be something for everybody.

I will be attending the Bob Matthews Sale by Superior May 29- June 4 and the Long Beach Convention immediately following the sale. Then the Dallas Coin Expo June 14-17.

We expect to be moving into a new house in Edmond, Oklahoma this summer. Lots more room (i.e. office space) and more importantly, Frank(?) and Glenn(?) tell me, a park across the street with a pool and a swing. I will keep you up to date on phone and mailing address changes. Thanks.

Well another Early American Coppers convention has passed into history. This years convention in Cincinatti was perhaps the most successful and well attended convention we have had. I arrived as early as possible Thursday afternoon. The convention was held at the Drawbridge Inn actually located across the border in Kentucky as I arrived I noticed the hotel was located right next door to a brewery. I took this as an omen portending prevailing good spirits for the weekend. Entering the lobby I noticed Walter Breen sitting in the lounge with a couple other EACers. In fact the corriders were already littered with small groups of copper folk. I passed Del Bland on the way to my room,"Hey Chris stop and see me later I have some stuff to show you" I made a mental note not to miss Del, he usually has some pretty interesting "stuff".

The formal EAC reception started around six though the festivities had really been going on for several hours. At least a days worth of production from the brewery next door had been chilled and delivered. This went along with the buffet just fine. There must have been at least a hundred EACers in the room and no lack of material for conversation. I think that occasionally because of the specialized nature of our pursuit we copper collector feel a bit isolated. A convention like this affords collectors the opportunit

get together and discuss their interests with others who share a common
thusiasm. What a joy it is to spend an entire weekend at a coin convention
thout hearing the words "what'll it slab" even once.
The reception was followed by "The Half Cent Happening" a white glove
fair where anually the most incredible Half Cents in existence are available
r anyone who cares to examine them. This can be a truly mind blowing affair
one is presented with mint state 1795 Half Cents to rank. " which do you
ke better the faded red unc or the prooflike black beauty?" About this
me I ran into Del again.."oh yea be up in a minute." I'd been talking with
ke George a buddy of mine from Texas so we both trekked up stairs to see
ls' stuff. Del had just been given a large collection to sell. Some nice
tuff". Hmm.. an S-118 have'nt seen one of these in a while. A decent S-208
5...S-285 maybe net VF. Three hours of looking at copper in hotel room
ght later I'm ready to head off to sleep. I can't believe it s 2 A.M. by the
me I make it to my room. My room mate Doug Bird is not only awake. He's on
e phone.." No chance on that, No that won't get that either...we'll
ve a good shot at that..." typical first day of EAC.
Bourse set up came early Friday morning. This was the largest EAC bourse
my memory with about fifty dealers set up. I made a few quick passes
t found relatively little available. I set up my cases and was immediately
amped. I can't even hazard a guess at the total attendance but this was
r and away the most heavily attended EAC convention since I have been a
mber. There were some marvelous displays. Tony Terranovas' remarkable
rmonts included a double struck RR9 Baby Head. Dennis Mendelson had
s varieties of 1795, a beautiful group of coins and also a mind boggling
splay of die states. This is one of the most fascinating areas of collecting.
ny somewhat common varieties have extremely rare die states. Often a die
ffered dramatic breaks before being removed from use producing incredible
rminal rim cuds and cracks. Dennis has worked diligently for several years
ilding die state progressions. His efforts showed in his display. Penny
se editor Harry Salyards having recently completed his set of 1802 varieties
d them on display. And no EAC convention would be complete without Dan
lmes display of Dr. Sheldons color set. There was a fascinating display
paper weights modeled on Large Cent designs EACer Dick Punchard had run
ross in an English antique shop. A display of Electros flanked the Cast-
rland tokens and restrikes of Ron Guth. Bill Weber had his 1794 Half Cent
rieties on view. There was an interesting "history of the Cent" display
ll Jones had put together and Jim Young had out his varieties of 1800.
e could have spent all of one day just examing these displays. Each one
s very well done and much appreciated by those in attendance. I contin-
d my efforts to buy coins off the floor whenever I could slip away from
table but was largely unsuccessfull. Where have all the nice coins gone?
ere were many more tables at this years convention but with few exceptions
real scarcity of nice problem free coins for sale. Luckily there was a
eady stream of folks coming by my table and I finally figured out I would
better to sit tight and see what walked up. Besides there was always
morrows auction.
By the end of the day I was beat. Jack Robinson and I had a date with the
ime rib over at the castle, a medieval styled restaurant nearby , the mont
ook our order and we began to relax. "Jack I looked through the new COR,
ere are still a few bugs to work out!"..."Yep" "Still no volunteer to
end a few thousand hours doing it the right way?"..."Nope" Jack received
e EAC acheivement award this year for COR and his other contributions to
C. Meanwhile we had five minutes to hoof it over to the educational seminars.
Some of you may have read about Mark Auerbachs research on the Máris
mily. Coin World recently published an article on Marks discovery of a
eviously unknown photograph of Dr Maris. Mark recounted his discovery
d gave out a souvenier photo of Dr Maris., Bill Jones gave a fascinating
story of Hard Times Tokens which would provoke almost anyone to an interest
HTTs. " I have written what I have written" something to that effect was
lters unmoved response to Bill Webers blistering attack on the sub varieties
sinking the subs" Phil Ralls hauled out the heavy artillary complete with
el projectors and computer generated graphics fro his presentation on
98 Cent varieties. Phil does quite a bit of public speaking as part of

his professional life. His excellent and entertaining presentation was one of the highlights of the evening. Especially his sincere plaintive description of the attributes of 1798 NC2 the only variety Phil needs to complete his set of 1798s. "If you should find one you have an immediate and eager buyer" Phil concluded. Later,however another collector confided that Phil had a 1796 S-100 he coveted and that he would pay more for the 98 NC2 in order to trade Phil out of the S-100. Deals upon deals upon deals and pre-auction feaver had not yet set in.

I spent Saturday morning viewing auction lots. This years auction was remarkable for the overall high quality and many high powered coins. I will mention that at least in one aspect the auction was deficient. There were very few affordable collector coins. That is, coins the average collector would enjoy having yet could afford to bid on. Though the value of Early Copper has risen dramatically over the past several years the majority of collectors still collect in the $30-$300 range. There were very few coins of that price range represented in the auction. I hope we will have a more balanced auction next year. I do not mean by the above to criticize the efforts of Bill Noyes. Bill expended much effort to obtain the outstanding consignment that highlighted the auction. I do think that an auction with this high caliber material enhances the reputation of EAC and the annual auction. I do want to see the same kind of material in next years sale. But I think we could add another two hundred lots of mid-range material. That would allow everyone to participate. As I was saying the coins in the sale were remarkable. A well known California collector had consigned a group of simply incredible duplicates! Duplicates like a mint state 1793 S-6, an EF45 1793 S-14, A superb MS67! 1794 S-26, A full red MS67 1807 S-254. Well you get the picture.

There was quite a bit of what I guess you would call "positioning" before the sale. Nothing unusual about that. THere were still some mighty battles beginning with the first Large Cent lot 14 the MS 1793 S-6 which brought a very strong $29,000. Lot 19 the S-17a listed as third finest known VF30 sold for $12,000 which I think will prove to be a bargain. I purchased the flipover double strike S-76a a nice F15 coin for my own collection at $1600. Gee it's worth that without the error! A beautiful 1796 S-112 listed as AU50 went for $7500 a strong price but not outrageous. The VF20 S-156 a very rare coin in any grade brought $5250. The full red S-251 was hammered down at $16,000. Among middle dates I bid in a beautiful AU55 1817 N-4 for $2400. And an important 1817 N-10 MS60 and likely tied for finest known for $1900 both for a Nevada collector. There were many important condition census middle dates offered here. I think the overall quality was so high that a few were overlooked. For instance the AU50 1819 N-3 CCS or better sold for $950. A bit of money but one might have expected it to bring double that. On the other end an impaired proof 1823 N-1 brought 18K. The 1838 N-16 graded VF30 but at least 5-10 points better than that sold for $8000 the result of a dead earnest battle between an Uxbridge, Mass. collector and the ev.. winner of the lot a collector from Minneapolis. The finest known 1847 N-12 a beautiful MS60 coin was Bob Grellmans' for $1300. No finer home could a late date desire.

Sunday at most shows is anti-climatic but not so here. There was much activity. A lot of so longs. A few deals. Some down graders available. Promises to meet next year in Orlando or next month at the Matthews sale.

A great time.. Oh one more thing. After my description of airline travel after the Norweb sale a few months ago I get kidded a bit about my luck with the airlines. This time I was lucky enough by chance to be on the same connecting flight with Phil Ralls. Phil had his first class ticket downgraded so he could sit back in coach with me. We spent a pleasant couple hours talking copper as well as solving the crisis in Central America and paying off the national debt. A great time and a great group of people.
